

Introduction

Techno has designed a range of connectors that have top quality performance. They have expertise in moulded plastic components, thermoplastic injection which is extremely durable. Techno's solutions are truly compact with a high number of pole options.

Why is this Important?

Techno's Plug, Socket and Joint Connectors are IP 68 rated, built for continuous submersion with resin/gel free sealing technology. They are reliable in extreme conditions and means enclosure panel mount plugs and sockets are completely weather proof, further protecting the enclosure.
